

Opportunities
for Talents

The **Technical University of Munich (TUM)** invites applications for positions as

Professor in »Architecture and Timber Construction« Professor in »Architecture and Building Construction«

to begin in winter semester 2020/21 or later by mutual agreement. The positions are a W2 fixed-term position (6 years) with tenure track option to a tenured W3 position (Associate Professor) or a tenured W3 (Associate or Full) position.

Scientific environment

The professorships belong to the TUM Department of Architecture. We design systems, structures and spaces. Our vision is to successfully combine design practice with research. The department is well-connected with the engineering disciplines. We are in charge of integrating design methods into technology development and promote a new Integrative Research Center in this field at TUM.

Responsibilities

The responsibilities include research and teaching as well as the promotion of early-career scientists. We seek to appoint experts in the areas of building construction and timber construction. The teaching load includes courses in the university's bachelor's and master's programs. The professorships teach theoretical basics, methodical and subject-specific knowledge in their respective fields. They address design research as well as applied research. Transfer services into professional practice and a high time presence at the Munich location are expected.

Qualifications

We are looking for candidates with advanced scientific experience, proven by achievements in research and teaching at the highest international standards, according to the relevant career level. A university degree and an outstanding doctoral degree or equivalent scientific/artistic qualification as well as pedagogical aptitude, including the ability to teach in English, are also prerequisites. Substantial research experience abroad is expected. The professorships are open to architects with professional experience. The proven ability to gain and to lead cooperative research projects and to attract third party funding is a prerequisite.

Our Offer

Based on best international standards and transparent performance criteria, TUM offers a merit-based academic career option for tenure track faculty from Assistant Professor through a permanent position as Associate Professor, and on to Full Professor. The regulations of TUM Faculty Recruitment and Career System apply.

TUM provides excellent working conditions in a lively scientific community, embedded in the vibrant research environment of the Greater Munich Area. TUM environment is multicultural, with English serving as a common interface for scientific interaction. The TUM Munich Dual Career Office (MDCO) provides tailored career consulting to the partners of newly appointed professors. MDCO gives assistance for relocation and integration of new professors, their partners and accompanying family members.

Your Application

TUM is an equal opportunity employer. As such, we explicitly encourage applications from women. Applications from disabled persons with essentially the same qualifications will be given preference.

Application documents should be submitted in accordance with TUM's application guidelines for professors. These guidelines and detailed information about the TUM Faculty Recruitment and Career System are available on www.tum.de/faculty-recruiting. Here, you will also find TUM's information on collecting and processing personal data as part of the application process.

Please send your application no later than **May 13, 2020** to the **Dean of the Department of Architecture**, Prof. Andreas Hild, Technical University of Munich, Arcisstrasse 21, 80333 Munich, **Email address for applications: dekan@ar.tum.de** If you are interested in an application, we invite you to use the opportunity of a preliminary talk. Please send inquiries to dekan@ar.tum.de.
